METAVERSE

Team:
1. Vihal Roy
2. M.K.Ganesh
3. U.Dinesh reddy

Introduction:

The metaverse is a concept of a persistent, online, 3D universe that combines multiple different virtual spaces.
You can think of it as a future iteration of the internet.
The metaverse will allow users to work, meet, game, and socialize together in these 3D spaces.

The metaverse isn't fully in existence, but some platforms contain metaverse-like elements.
Video games currently provide the closest metaverse experience on offer.
Developers have pushed the boundaries of what a game is through hosting in-game events and creating virtual economies.

USER ANALYSIS:

1. So the user need the login page first.

2. Before the login the user need signup page.

3. After that the user need to type the information needed.

4. After that user need to re login then user will get home page.

Login needed
1.username
2.password
3.forget password
4.login button
5.signup button

Signup needed
1.first name
2.last name
3. Gender
4.email
5.mobile number
6.create password
7.confirm password

Home page
1.Introduction
2. About meta verse
3. More information
